👔 ABOUT ME

I am a student in an engineering school, currently in my 4th year of studies in Telecommunications and Networks Engineering, and I am seeking a hands-on internship in the field of DevOps and computer development. Leveraging the theoretical knowledge I have acquired in class, I am eager to apply my skills and learn new techniques by working on concrete projects within a dynamic company. I am a motivated and diligent individual, and I am confident that this internship will

🎓 EDUCATION

ENGINEERING IN THE FIELD OF NETWORKS AND TELECOMMUNICATIONS — 2024 -Present

A highly enriching training that has allowed me to acquire knowledge in several areas: Network protocols (TCP/IP, DNS, DHCP), routing and switching, network security, wireless communication, VoIP, programming languages (Python, Java), etc.

INTEGRATED PREPARATORY CYCLE AT ENSA SAFI — 2020-2022

A thorough scientific education in mathematics and physics has allowed me to enhance my problem-solving skills and decision-making abilities.

BACHELOR'S DEGREE IN SCIENCE MATHEMATICS — 2020
JAAFAR EL FASSI HIGH SCHOOL (WITH HONORS).

🗂 PROJECTS

PROJECT (REACT NATIVE MOBILE APPLICATION) :

- Développé une application de bureau Java Swing avec une sécurisation avancée des mots de passe grâce à BCrypt pour l'authentification.
- Utilisé Eclipse comme environnement de développement et intégré une base de données SQL pour le stockage et la récupération des données

Visit : abdessamad-el-oidii.netlify.app/project-1

APPLICATION MOBILE (REACT NATIVE) :

- Developed a cross-platform mobile application using React Native, primarily utilizing JavaScript and JSX for user interface development.
- Utilized Firebase Realtime Database as a real-time NoSQL database service for data storage.
- Targeted Android and iOS platforms to reach a broad audience of users.
